

Notice of Sanitary Sewer installation

Night Work

Re: Cowichan District Hospital Replacement Project

6775 Bell McKinnon Rd, Duncan, BC

Dear Resident,

Please be advised Hall Constructors will be installing an underground Sanitary Sewer from Hwy #1 at Bell McKinnon Road through Drinkwater Road (approx. 155 meters.) Start Date: September 18 – October 18, 2023 (See attached drawing).

During this work, all residents are required to park in their driveways from the hours of 6pm to 7am.

Arrangements will be made to establish contact protocol for any residents and guests who require access through the work zone between the hours of 6pm and 7am. At this time access to the boat launch and fishing pier will not be available. Residents are asked to contact Hall's Project Coordinator below and schedule a guided escort through the work zone at the request time of access. Guided access will be provided through the BC forest Discovery Museum property and is required to maintain security and safety throughout the work zone during the night work.

Any vehicles parked within the work zone during the above noted hours may be towed at the owner's expense.

Thank you for your patience and understanding as Hall completes these upgrades to your neighbourhood. Our workers and their families appreciate your patience and care when travelling through the work zones. Hall is committed to communicating with all the affected residents and business to help minimize impacts and to ensure the safety of all persons involved with and travelling through the areas of this project.

Please do not hesitate to contact a member of the project team with any questions or concerns.
